

M/s Consultant & Contractors,

Dear Sirs,

We would like to take this opportunity to introduce Al Firdous Aluminium & Glass Cont. (LLC), as a Sub-contractor for aluminium & glazing work in the U.A.E. We have pleasure to declare that it is appreciated on its own repute by contemporary building designers and architects.

We are able to complete the work on time in accordance with the Specification and Tender Drawings at a very competitive price. As far as quality is concerned, we are following quality assured and quality-controlled system in accordance with any International Standards.

We have a well-organized workshop with skilled laborers, closely monitored by qualified supervisors doing the following works.

- Our own architectural profiles, specialized in curtain walls (4-way, 2-way, conventional, structure glazing)**
- Manufacturing and designing of aluminium doors, windows and all type of aluminium and glazing works such as skylight, cast aluminium gates, stainless steel and aluminium hand rails, aluminium kitchen cabinets, Aluminium Composite Panel Cladding.**

We are following all conventional safety procedures in workshop and sites during working.

In the following pages, we have summarized the information, which will help to evaluate the capacity and capability of the Company. We are sure of your favour.

We would like to ask with high respect for an opportunity to work with you and assure you that our association will dominate the industry of aluminium and glazing works in the Emirates.

With warm regards,

**JACOB KOSHY
CHAIRMAN**

PROCUREMENT

Al Firdous at present procures their material from the Gulf extrusions-Dubai of AL GHURAIR Group of Companies, of the largest industrial group in the U.A.E.

Gulf Extrusion procures their raw materials from Dubai Aluminium Company Ltd. (DUBAI). Extrusion technology is providing by “Alcan booth UK”, for colouring famous “Anolok” electro-colouring process. The system is selected to the appropriate type and imposed loads for the particular building design.

Insulated glazing units are procured from Gulf Glass Industries – Sharjah, one of the leading glass industries of the U.A.E. using ultra modern machinery and techniques. Glass procurement for units is sourced from U.S. and European suppliers such as Ford, Glaverbel, St. Gobain

SAFETY

As regard to safety in workshop and sites during working, all conventional safety equipments are employed including suitable cradles, personal safety equipments such as helmets, boots, etc. First equipment is provided and sited at a central location with the main contractor.

DESIGN CONSIDERATIONS

We are capable to manufacture tailor made curtain walls, doors, windows etc. to suit architects / clients design and specification. To achieve this our technical department is backed by qualified engineers and technicians with extensive field experience. All the designs and drawing are carried out by our Auto CAD draughts men on the computers.

ON SITE CONSIDERATION

We employ highly skilled and field experienced foremen, technicians and labors on the sites backed by our extensive training in the factory to ensure the quality work.

Coordination between site to factory and technical debarment ensures that customers are provided with the best practical solution to their entire satisfaction.

STRUCTURAL GLAZING SYSTEMS

Structural Glazing Curtain wall system is two types:

4-Way Structural Glazing System

2-Way Structural Glazing System

A4- Way structural glazing system is one where it eliminates both vertical as well as horizontal aluminium strips from the external façade.

A-2 Way structural glazing system eliminates either vertical or horizontal aluminium strip from the external façade.

The structural glazing system allows and gives a choice to the architects to design monolithic facades without interruptions of aluminium strips in any of the plane.

Subject : RE: Material Submittal - Bullet Proof Glass & Frame

Dear Sir,

Reference to your letter dated 10/10/2021, regarding the above-mentioned material submittal, we approved as per comments below:

- 1. Glass-LBR6-NS-41.22 mm** – Test Certificate and Warranty Certificate must be provided from the Manufacturer.
- 2. Frame** – Metal frame need to be approved by the Designer/Bullet proof Manufacturer.
 - SS finish should be brush finish.
- 3. Drawings** - Find comments on the attached drawings.

This is for your information and action.

Yours Sincerely,

For and on Behalf of

Specialist Engineering Consultancy

Engr. Ajith Prakash
Construction Manager
